# SUSTAINABLE SCHOOLS: NAVIGATING ENVIRONMENTAL CHANGES

Your Mobility Partner

**PIC Number: 948037649 Organisation ID: E10207576**

# Course Overview

"Sustainable Schools" is a transformative 5-day course designed for educators committed to fostering sustainability within educational institutions. This program provides a comprehensive exploration of environmental changes, empowering educators to lead the way in creating sustainable and eco-friendly schools. Through a blend of theoretical insights, practical applications, and collaborative activities, participants will gain the knowledge and skills needed to initiate positive environmental changes within their schools.

---

## Course Objectives

- Define sustainability in the context of educational institutions and its global significance.
  - Design eco-friendly and energy-efficient school facilities.
  - Integrate environmental education into the curriculum through interdisciplinary projects.
  - Foster partnerships with local communities and organizations for sustainable initiatives.
  - Develop strategies to assess sustainable learning outcomes and create a sustainable action plan for schools.
- 

## Learning Outcomes

Educators participating in "Sustainable Schools" will embark on a transformative 5-day journey, committed to fostering sustainability within educational institutions. This comprehensive program empowers participants to lead the way in creating eco-friendly schools by exploring environmental changes. The course blends theoretical insights, practical applications, and collaborative activities, ensuring educators gain the knowledge and skills needed to initiate positive environmental changes within their educational communities.
